

## Comhairle nan Eilean Siar

Information on council performance comes from statutory performance indicators, the performance management and planning audit, value for money and other reports. **All** of these must be taken into account in considering how a council is performing. Further details about all of the information below are available in Section 1 of this document.

### Contextual data

- total resident population 26,502
- number of households 11,670
- Grant Aided Expenditure for 2002/2003 (£'000) 61,997
- Band D Council Tax for 2001/2002 (£) 815

### Statutory Performance Indicators - summary information

The council's performance worsened by 5% or more on 13 measures, and improved by 5% or more on 9 measures

	Measures that worsened by...			Measures that improved by...		
	>15%	10-14%	5-9%	5-9%	10-14%	>15%
<b>Scotland</b>	5.9	2.7	3.7	4.5	3.0	9.2
<b>Eilean Siar</b>	10	3	0	0	3	6

A full set of the SPI measures used for this analysis is included at the end of the profile.

In 1999/2000 this council had a ranking of 25 or below in indicators 7, 16, 17, 19, 21, 24, 28, 33 and 40. By 2001/02, they had not improved by at least 5% in the following indicators:

Indicator number	Indicator definition
<b>7</b>	Building control - the average time (days) taken to respond to a request for a completion certificate
<b>17</b>	Secondary schools - the percentage of schools in which the ratio of pupils to available places is between 61% and 100%
<b>24</b>	Refuse collection - the gross cost per property (£) of refuse collection
<b>28</b>	Council tax - the gross cost of collecting council tax per chargeable dwelling (£)
<b>33</b>	Tenancy changes - the percentage of empty houses that were re-let within four weeks

### Progress towards Best Value: The performance management and planning (PMP) audit

Best Value requires councils to implement effective arrangements for planning and managing their performance. The performance management and planning (PMP) audit assesses the extent to which councils have these arrangements in place. Results from the PMP audit, SPIs, performance audit and other reports should **all** be considered when assessing council or service performance.

Between 1999 and 2002 the PMP audit was applied to Comhairle nan Eilean Siar's corporate function and to a total of eight Comhairle nan Eilean Siar services (Exhibit 1). The criteria used in the PMP audit are outlined in Section 1, Exhibit 3. Having over 70% of best practice criteria elements in place is recognised as a good achievement. Councils with less than 60% of best practice elements in place generally have room to make substantial improvements.

The corporate audit (2000/01) found that Comhairle nan Eilean Siar had less than 60% of the elements of best practice performance management and planning in place. The service audits found that one of the eight Comhairle nan Eilean Siar services had 70% or more of best practice elements in place. One service audited in 1999/00 (Chief Executive's office), two services audited in 2000/01 (social work and corporate services) and one service audited in 2001/02 (technical services) had less than 60% of best practice elements in place.

Comhairle nan Eilean Siar planned to make improvements in all the PMP audited services and to its corporate function. The 2001/02 PMP audit looked at the extent of progress made and found:

**Services audited in 1999/00**

- Chief Executive's office – some progress but slippage
- Finance – some progress but slippage
- Environmental services – improvements had been or were on target to be introduced

**Services audited in 2000/01**

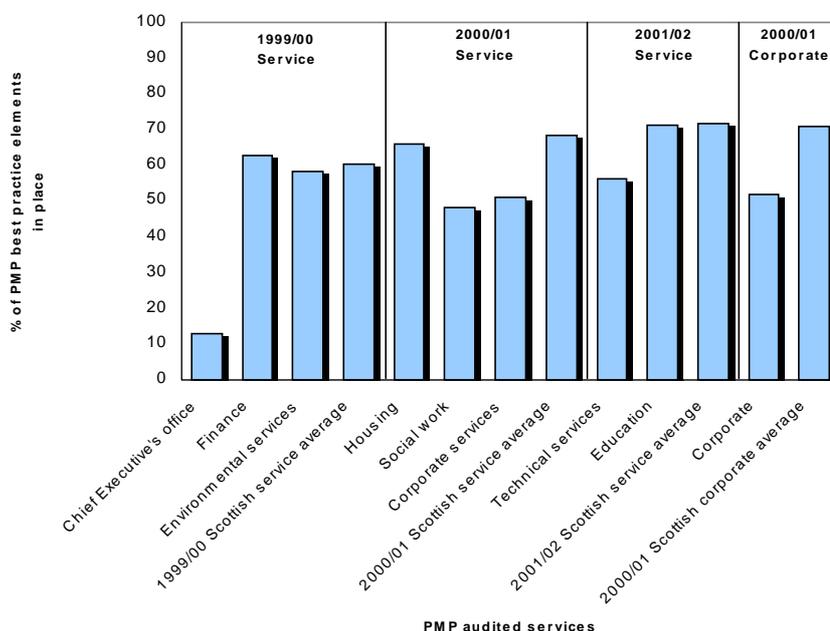

- Housing – some progress but slippage
- Social work – improvements had been or were on target to be introduced
- Corporate services – improvements had been or were on target to be introduced

**Corporate function audited in 2000/01**

- improvements had been or were on target to be introduced

**Exhibit 1: PMP audit results 1999-2002**

The proportion of best practice elements that audited services across Scotland had in place has increased over the three years of the PMP audit. In 1999/00 the average (mean) proportion was 60%; in 2000/01 the average proportion was 69%; and in 2001/02 the average proportion was 72%. One of the eight audited services had a higher than Scottish average score.

**Accounts Commission/Audit Scotland reports (April 2001 to December 2002)**

- There were no Accounts Commission statutory reports published on this council during the time period
- The appointed auditor's report on the council's financial statement for the year was unqualified

- The following Value for Money reports were published during the time period and included comparative performance levels on all councils:
  - ‘A job worth doing - raising the standard of internal audit in Scottish councils’ (August 2001) assessed this council as band 1, councils that almost fully comply with the CIPFA code of practice for internal audit
  - ‘A safer place revisited - a review of progress in property risk management in schools’ (June 2001) mentioned this council as:
    - o having very low levels of vandalism, a total of £1,000 in 1999/2000, equating less than £1 per pupil
    - o having made good progress on some recommendations, but less on others

### Notes

1. An underlined measurement indicates unreliable data.
2. This measure is presented in family groups in Section 3.
3. Measure 12: Eilean Siar reported no employees at senior professional level
4. Measure 31: Housing Response Repairs: this measure is taken from a 'transitional' indicator, which requires care in interpretation. Each council's performance is assessed against its own locally-set targets. We have measured the proportion of repairs due to be completed within 24 hours, that were completed in time. This allows broad comparison among councils.
5. Unreliable data has not been ranked.
