

East Ayrshire Council

Information on council performance comes from statutory performance indicators, the performance management and planning audit, value for money and other reports. **All** of these must be taken into account in considering how a council is performing. Further details about all of the information below are available in Section 1 of this document.

Contextual data

- total resident population 120,235
- number of households 51,080
- Grant Aided Expenditure for 2002/2003 (£'000) 163,703
- Band D Council Tax for 2001/2002 (£) 967

Statutory Performance Indicators - summary information

the council's performance worsened by 5% or more on 12 measures, and improved by 5% or more on 13 measures

	Measures that worsened by...			Measures that improved by...		
	>15%	10-14%	5-9%	5-9%	10-14%	>15%
Scotland	5.9	2.7	3.7	4.5	3.0	9.2
East Ayrshire	4	4	4	2	2	9

A full set of the SPI measures used for this analysis is included at the end of the profile.

In 1999/2000 this council had a ranking of 25 or below in indicators 14, 20, 24, 29, 32, 34, 35, 37, 49, 56, 57 and 66. By 2001/02, they had not improved by at least 5% in the following indicators:

Indicator number	Indicator definition
20	Noise complaints - the percentage of initial noise complaints that were dealt with in one day
29	Council tax - the percentage of council tax income for the year that was collected in the year
32	Tenancy changes - the percentage of rent loss due to unoccupied dwellings
37	Homelessness - the number of homeless households in priority need provided with temporary accommodation in council-furnished dwellings, as a percentage of the total provided with temporary accommodation
56	Residential homes – the percentage of residential care places in homes for older people, that are single rooms
57	Residential homes – the percentage of residential care places in homes for other adults, that are single rooms
66	Consumer complaints - the percentage of complaints completed within 14 days of receipt

Progress towards Best Value: The performance management and planning (PMP) audit

Best Value requires councils to implement effective arrangements for planning and managing their performance. The performance management and planning (PMP) audit assesses the extent to which councils have these arrangements in place. Results from the PMP audit, SPIs, performance audit and other reports should **all** be considered when assessing council or service performance.

Between 1999 and 2002 the PMP audit was applied to East Ayrshire Council's corporate function and to a total of eight East Ayrshire Council services (Exhibit 1). The criteria used in the PMP audit are outlined in Section 1, Exhibit 3. Having over 70% of best practice criteria elements in place is recognised as a good achievement. Councils with less than 60% of best practice elements in place generally have room to make substantial improvements.

The corporate audit (2000/01) found that East Ayrshire Council had 70% or more of the elements of best practice performance management and planning in place. The service audits found that three of the eight East Ayrshire Council services had 70% or more of best practice elements in place. The three services audited in 1999/00 (PMP1) had less than 60% of best practice elements in place.

East Ayrshire Council planned to make improvements in all the PMP audited services and to its corporate function. The 2001/02 PMP audit looked at the extent of progress made and found:

Services audited in 1999/00

- Grounds maintenance – some progress but slippage
- Criminal justice – some progress but slippage
- Property repairs – some progress but slippage

Services audited in 2000/01

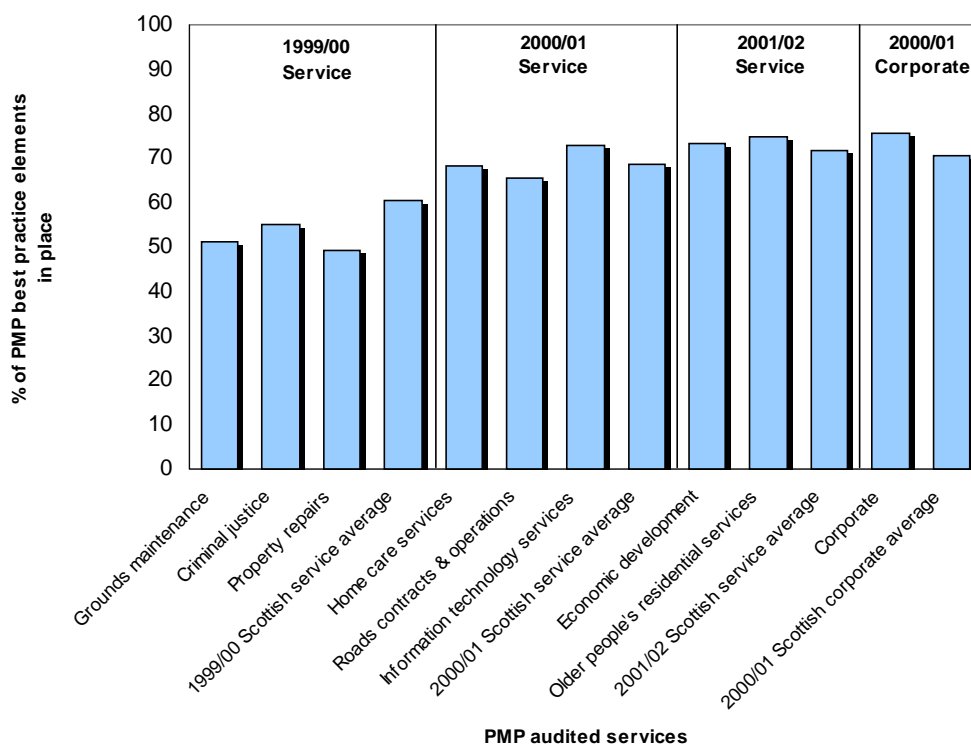

- Home care services – some progress but slippage
- Roads contracts & operations – improvements had been or were on target to be introduced
- Information technology services – some progress but slippage

Corporate function audited in 2000/01

- improvements had been or were on target to be introduced

Exhibit 1: PMP audit results 1999-2002

The proportion of best practice elements that audited services across Scotland had in place has increased over the three years of the PMP audit. In 1999/00 the average (mean) proportion was 60%; in 2000/01 the average proportion was 69%; and in 2001/02 the average proportion was 72%. Three of the eight audited services had higher than Scottish average scores.

Notes

1. An underlined measurement indicates unreliable data.
2. This measure is presented in family groups in Section 3.
3. Measure 31: Housing Response Repairs: this measure is taken from a 'transitional' indicator, which requires care in interpretation. Each council's performance is assessed against its own locally-set targets. We have measured the proportion of repairs due to be completed within 24 hours, that were completed in time. This allows broad comparison among councils.
4. Unreliable data has not been ranked.
