

Inverclyde Council

Information on council performance comes from statutory performance indicators, the performance management and planning audit, value for money and other reports. **All** of these must be taken into account in considering how a council is performing. Further details about all of the information below are available in Section 1 of this document.

Contextual data

- total resident population 84,203
- number of households 37,700
- Grant Aided Expenditure for 2002/2003 (£'000) 121,287
- Band D Council Tax for 2001/2002 (£) 1,062

Statutory Performance Indicators - summary information

The council's performance worsened by 5% or more on 16 measures, and improved by 5% or more on 14 measures

	Measures that worsened by...			Measures that improved by...		
	>15%	10-14%	5-9%	5-9%	10-14%	>15%
Scotland	5.9	2.7	3.7	4.5	3.0	9.2
Inverclyde	7	2	7	5	2	7

A full set of the SPI measures used for this analysis is included at the end of the profile.

In 1999/2000 this council had a ranking of 25 or below in indicators 9, 10, 17, 29, 30, 32, 33, 34, 35, 39, 43, 44, 50, 56 and 57. By 2001/02, they had not improved by at least 5% in the following indicators:

Indicator number	Indicator definition
10	Sickness absence - the percentage of working days lost through sickness absence for teachers
17	Secondary schools - the percentage of schools in which the ratio of pupils to available places is between 61% and 100%
34	Rent arrears - current tenant arrears as a percentage of the net amount of rent due in the year
35	Rent arrears - the percentage of current tenants owing more than 13 weeks' rent at the year end, excluding those owing less than £250
39	Traditional pools - the number of attendances per 1,000 population
43	Library stock turnover – the percentage of the national target met for replenishing lending stock for children and teenagers
44	Library stock turnover – the percentage of the national target met for replenishing lending stock for adults

Progress towards Best Value: The performance management and planning (PMP) audit

Best Value requires councils to implement effective arrangements for planning and managing their performance. The performance management and planning (PMP) audit assesses the extent to which councils have these arrangements in place. Results from the PMP audit, SPIs, performance audit and other reports should **all** be considered when assessing council or service performance.

Between 1999 and 2002 the PMP audit was applied to Inverclyde Council's corporate function and to a total of eight Inverclyde Council services (Exhibit 1). The criteria used in the PMP audit are outlined in Section 1, Exhibit 3. Having over 70% of best practice criteria elements in place is recognised as a good achievement. Councils with less than 60% of best practice elements in place generally have room to make substantial improvements.

The corporate audit (2000/01) found that Inverclyde Council had 70% or more of the elements of best practice performance management and planning in place. The service audits found that three of the eight Inverclyde Council services had 70% or more of best practice elements in place. One service audited in 1999/00 (economic development) and one service audited in 2001/02 (building services) had less than 60% of best practice elements in place.

Inverclyde Council planned to make improvements in all the PMP audited services and to its corporate function. The 2001/02 PMP audit looked at the extent of progress made and found:

Services audited in 1999/00

- Legal services – improvements had been or were on target to be introduced
- Economic development – some progress but slippage
- Services to children & families – some progress but slippage

Services audited in 2000/01

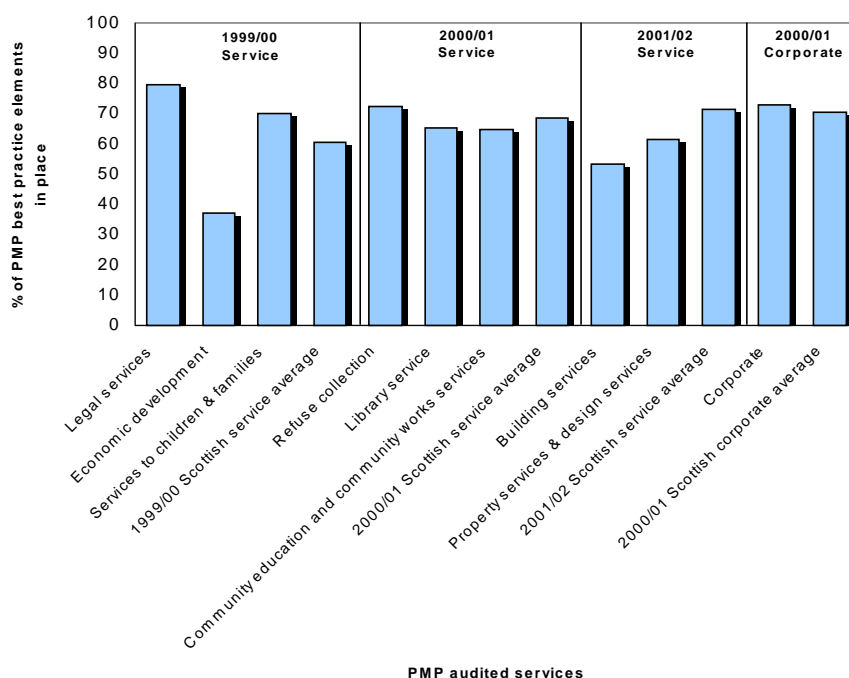

- Refuse collection – some progress but slippage
- Library service – some progress but slippage
- Community education and community works – some progress but slippage

Corporate function audited in 2000/01

- improvements had been or were on target to be introduced

Exhibit 1: PMP audit results 1999-2002

The proportion of best practice elements that audited services across Scotland had in place has increased over the three years of the PMP audit. In 1999/00 the average (mean) proportion was 60%; in 2000/01 the average proportion was 69%; and in 2001/02 the average proportion was 72%. Three of the eight audited services had higher than Scottish average scores.

Notes

1. An underlined measurement indicates unreliable data.
2. This measure is presented in family groups in Section 3.
3. Measure 31: Housing Response Repairs: this measure is taken from a 'transitional' indicator, which requires care in interpretation. Each council's performance is assessed against its own locally-set targets. We have measured the proportion of repairs due to be completed within 24 hours, that were completed in time. This allows broad comparison among councils.
4. Unreliable data has not been ranked.
