A full set of the SPI measures used for this analysis is included at the end of the profile.

In 2003/04 this council had a ranking of 25 or below in indicators 6, 19, 21, 22, 30, 43, 48, 49, 61 and 63. By 2005/06, they had not improved by at least 5% in the following indicators:

Indicator number	Indicator definition
19	Social enquiry reports - the proportion of reports submitted by the social work department to the courts by the due date
21	Community service - the average hours per week taken to complete community service orders
43	Council tax - the percentage of council tax income for the year that was collected in the year

Progress towards Best Value

Between 1999 and 2002, the Accounts Commission's Performance Management and Planning (PMP) audit assessed the arrangements that councils' had in place to manage their performance under Best Value. It examined the extent to which councils and their various services had in place the basic building blocks for Best Value, in particular the key management processes required. Comment on the findings of the PMP Audit for the council may be found in the Profiles for 2001/02.

The PMP audits have been superseded by a cyclical programme of Best Value and Community Planning audits. This programme began in early 2004 and aims to cover all 32 councils over three years.

Notes

1. An underlined measurement indicates unreliable data.
2. This measure is presented in family groups in Section 3.
3. Unreliable data has not been ranked.

Reason for unreliable determination 2005/06

8,9,10 - Copies of the reports prepared at 31 March 2006 were not taken and no supporting documentation was available to support the numbers disclosed. This SPI should also be consistent with the JPIAF return, which it is not.

11-18 - Not all the data was entered onto the system and the LA is unable to quantify this data.

31,32,33,34 - The information entered into this system is not consistent with other data and the LA is unable to identify which is correct. Both Adult Social Work and Children's Services indicators are prepared using the same system.

46 - The number of recreational facilities through the use of community/schools establishments has not been identified together with the attendance data thereon.

47 - This system was unreliable last year and no amendments to the system have been made. Working practices have been reviewed but changes not yet adopted.
