

Cultural and community services

Sport and Leisure Management - the number of attendances per 1,000 population for all pools

Attendance figures indicate the extent to which pools are used.

This indicator does not record the number of users; a particular figure may reflect high usage by a small number of individuals or low usage by a large number of individuals. The indicator may also conceal wide variations in usage between different facilities within a council.

Points to bear in mind

Important factors that influence attendance levels include:

- number and size of facilities available for use
- the age, quality and range of these facilities
- the extent to which facilities and activities are publicised
- the opening hours, variety, programming and cost of activities on offer
- the location of pools in relation to other competing leisure facilities.

The characteristics of the catchment area for a facility may also have an influence on this indicator.

Cultural and community services

Sport and Leisure Management - the number of attendances per 1,000 population for all pools

Unreliable/Unreported Data in 2005/06

Council	03/04	04/05	05/06
Aberdeen City	3467	3521	3306
City of Edinburgh	3595	3652	3554

Reason for Unreliable Determination in 2005/06

Aberdeen City - The number of recreational facilities through the use of community/schools establishments has not been identified together with the attendance data thereon.

City of Edinburgh - The data provided is incomplete as it does not include attendance figures at dual-use facilities. (Performance has been understated).

Notes

An underlined PI measurement indicates unreliable data.

Cultural and community services

Sport and Leisure Management - the number of attendances per 1,000 population for all pools

The following councils were ranked 25th or below in 2003/04:

Clackmannanshire
Dumfries & Galloway
East Ayrshire
East Renfrewshire
Glasgow City
Stirling

The following councils did not make any material improvement in their performance by 2005/06:

Clackmannanshire
Dumfries & Galloway
East Renfrewshire
Glasgow City
Stirling

Cultural and community services

Indoor facilities – the number of attendances per 1,000 population

This indicator relates to all activities provided by the council at purpose built indoor sports and recreational facilities other than pools. Attendance figures indicate the extent to which indoor leisure facilities are used. This indicator does not record the number of users; a particular figure may reflect high usage by a small number of individuals or low usage by a large number of individuals.

Points to bear in mind

Important factors that influence attendance levels include:

- the age, quality, size and range of facilities available
- the extent to which facilities and activities are publicised
- the variety, scheduling and cost of activities on offer
- the location of pools in relation to other competing leisure facilities.

When a council has more than one leisure facility, the level of attendance at any facility may vary considerably from the average attendance for that council.

The indicator may also conceal wide variations in usage between different facilities within a council.

Cultural and community services

Indoor facilities - the number of attendances per 1,000 population

Unreliable/Unreported Data in 2005/06

Council	03/04	04/05	05/06
Aberdeen City	2455	2743	<u>2776</u>
Clackmannanshire	7927	7940	<u>7308</u>
City of Edinburgh	2926	2986	<u>3231</u>

Reason for Unreliable Determination in 2005/06

Aberdeen City - This system was unreliable last year and no amendments to the system have been made. Working practices have been reviewed but changes not yet adopted.

Clackmannanshire - Clackmannanshire Council indicated that it cannot guarantee the reliability of this indicator.

City of Edinburgh - The data provided is incomplete as it does not include attendance figures at dual-use facilities. (Performance has been understated).

Notes

An underlined PI measurement indicates unreliable data.

Cultural and community services

Indoor facilities - the number of attendances per 1,000 population

The following councils were ranked 25th or below in 2003/04:

Aberdeenshire
Argyll & Bute
Highland
Moray
Scottish Borders
Stirling

The following councils did not make any material improvement in their performance by 2005/06:

Moray
Scottish Borders

Cultural and community services

Stock turnover – the percentage of the national target met for replenishing lending stock for adults

This indicator measures the changes in library stock.

Points to bear in mind

The COSLA report '*Standards for the Public Library Service in Scotland*', published in 1995, recommends that "annual additions of adult material should be 280 items per 1,000 of the population".

Factors likely to affect the performance of councils include:

- the purchasing policy of a council
- the demand for library stock
- levels of investment in the lending stock.

Cultural and community services

Stock turnover – the percentage of the national target met for replenishing lending stock for adults

Cultural and community services

Use of libraries – the number of borrowers as a percentage of the resident population

This indicator shows the number of people who actively borrowed books and other items of media during the year, expressed as a percentage of the resident population. The average is calculated by dividing the total number of items of all forms of media issued on loan during the year by the number of borrowers.

Points to bear in mind

The percentage of the population who actively use library loan facilities will be affected by:

- the marketing policy of the council
- the ability of the council to supply the stock which its users want
- the loan period and the number of items that may be borrowed
- the location of libraries
- the demand for library stock
- levels of investment in the lending stock.

Cultural and community services

Use of libraries – the number of borrowers as a percentage of the resident population

Cultural and community services

Use of libraries – the average number of issues per borrower

This indicator shows the extent of borrowing by those people who make use of the library lending facilities. Borrowers exclude those who, although members of the library, did not borrow any items during the year

The average is calculated by dividing the total number of items of all forms of media issued on loan during the year by the number of borrowers.

Points to bear in mind

The percentage of the population who actively use library loan facilities will be affected by:

- the marketing policy of the council
- the ability of the council to supply the stock which its users want
- the loan period and the number of items that may be borrowed
- the location of libraries
- the demand for library stock
- levels of investment in the lending stock.

Cultural and community services

Use of libraries – the average number of issues per borrower

Cultural and community services

Use of libraries – the average number of issues per borrower

The following councils were ranked 25th or below in 2003/04:

East Renfrewshire
South Ayrshire
West Dunbartonshire
West Lothian

The following councils did not make any material improvement in their performance by 2005/06:

East Renfrewshire
South Ayrshire
West Dunbartonshire
West Lothian

Cultural and community services

Learning centre and learning access points - number of users as a percentage of the resident population

This indicator reflects the use being made of the learning opportunities and access to electronic information provided through councils' library services in conjunction with the New Opportunities Fund as part of the government's commitment to life-long learning and improving information technology and communications skills. The proportion of the population using the learning centres and access points will reflect the extent to which each council is developing its provision across its area in accordance with the needs of its population.

Learning centres or access points' are terminals provided either in clusters or singly within the council's public libraries (including mobile libraries) for the provision of a range of electronic resources that must be networked and include:

- office packages covering word processing, spreadsheet and database applications
- information resources including CD Rom, disk and database services
- Internet and e-mail facilities.

They include only those in public library facilities and exclude provision for schools.

Cultural and community services

Learning centre and learning access points - number of users as a percentage of the resident population

Unreliable/Unreported Data in 2005/06

Council	03/04	04/05	05/06
Glasgow City	14.3	<u>20.5</u>	<u>26.6</u>

Reason for Unreliable Determination in 2005/06

Glasgow City - A new IT system was introduced late in the year which will provide accurate SPI data in future. SPI reported information is a mix of old and new systems outputs and therefore is agreed as unreliable.

Notes

An underlined PI measurement indicates unreliable data.

East Ayrshire

The following councils did not make any material improvement in their performance by 2005/06:

None

Cultural and community services

Learning centre and learning access points - number of time terminals are used per 1,000 population

This indicator reflects the use being made of the learning opportunities and access to electronic information provided through councils' library services in conjunction with the New Opportunities Fund as part of the government's commitment to life-long learning and improving information technology and communications skills. The number of times terminals are accessed will be the number of times/sessions each terminal is logged on to or opened by a user, whether registered or not.

Learning centres or access points' are terminals provided either in clusters or singly within the council's public libraries (including mobile libraries) for the provision of a range of electronic resources that must be networked and include:

- office packages covering word processing, spreadsheet and database applications
- information resources including CD Rom, disk and database services
- Internet and e-mail facilities.

They include only those in public library facilities and exclude provision for schools.
