76	Road network restrictions - the percentage of council and private bridges assessed that failed to meet the European standard of 40 tonnes

Progress towards Best Value

Between 1999 and 2002, the Accounts Commission's Performance Management and Planning (PMP) audit assessed the arrangements that councils' had in place to manage their performance under Best Value. It examined the extent to which councils and their various services had in place the basic building blocks for Best Value, in particular the key management processes required. Comment on the findings of the PMP Audit for the council may be found in the Profiles for 2001/02.

The PMP audits have been superseded by a cyclical programme of Best Value and Community Planning audits. This programme began in early 2004 and aims to cover all 32 councils over three years.
