

Join our school leaver programme

Help improve public services in Scotland

If you feel university is not for you and you want to enter the world of work while training for a qualification, join us on our five-year school leaver programme.

You will earn a competitive salary while gaining on-the-job experience and studying towards an Institute of Chartered Accountants of Scotland (ICAS) qualification.

We're Scotland's public sector auditor, responsible for ensuring that the Scottish Government and public bodies are held to account for the proper, efficient and effective use of public money. We employ around 320 exceptional professionals from different backgrounds.

Our school leaver programme includes full sponsorship to become a qualified Chartered Accountant with ICAS. You'll get a prestigious, internationally recognised qualification, while being involved in varied and interesting work. Benefits include a competitive salary, which increases on completion of exams, 42 days holiday per year and the opportunity to be involved in work across Scotland.

No matter what your background, if you've got great analytical skills and are committed to studying for a professional qualification, we've got real opportunities for you. We will encourage and support you to grow, develop and excel in a challenging and rewarding role as part of our friendly and professional team. We understand leaving school is a big step and you want to be sure that you make the right career choice.

If you have achieved or are expected to achieve good results in higher English and Maths (or equivalent) by summer 2022, then we would love to hear from you.
